

WHAT TIME IS IT?

www.happyneuronpro.com

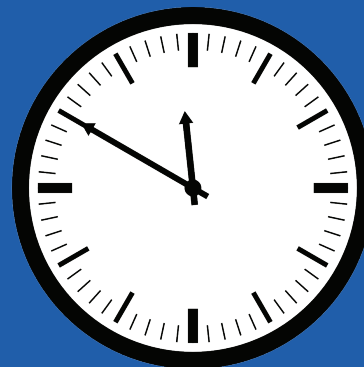

Continue the exercise from the previous page by determining the current time based off the clues and clock faces below.

Find the current time, knowing that one of the following clocks is 8:55 behind the current time and the other is 3:10 ahead of the current time.

The time is....

Find the current time, knowing that one of the following clocks is 5:25 behind the current time and the other is 7:15 ahead of the current time.

The time is....
