

WHAT TIME IS IT?

www.happyneuronpro.com

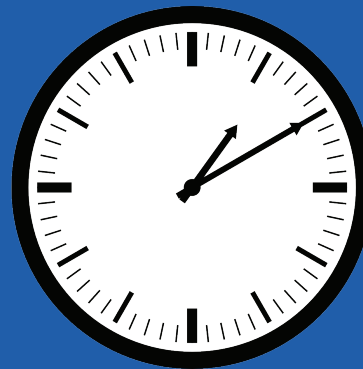

Oh no! Two clocks broke at different times during the day. Using the clues and clock faces below, figure out the current time. Once finished, turn the page to continue the exercise.

Find the current time, knowing that one of the following clocks is 2:10 behind the current time and the other is 1:25 ahead of the current time.

The time is....

Find the current time, knowing that one of the following clocks is 1:55 ahead of the current time and the other is 2:20 behind the current time.

The time is....
